Motivation - Herzberg (Two Factor Theory)

Two Factor Theory

What is the Herzberg Two Factor Theory of Motivation? 1: High hygiene and high motivation. This is the ideal situation. Employees are very motivated and barely have any... 2: High hygiene and low motivation. Employees have few complaints, but they’re not really motivated, they see their work... 3: Low hygiene and high motivation. These results form the basis of Herzberg’s Motivation-Hygiene Theory (sometimes known as Herzberg’s Two Factor Theory). Published in his famous article, "One More Time: How do You Motivate Employees," the conclusions he drew were extraordinarily influential, and still form the bedrock of good motivational practice nearly half a century later.

Herzberg’s Motivators and Hygiene Factors - from MindTools.com

The Two Factor Theory or Herzberg’s Theory of Motivation is still to this day, holding to the test of time. However, through its existence there have been many critiques. In 1968, Herzberg indicated that there were 16 other studies from various parts of the world that use different population samples that are supportive of his original findings.

Herzberg’s Two Factor Theory of Motivation

A major work in the field of employee motivation is done by Frederick Herzberg (1964) that includes Two-factor Theory among other works of the author. According to the Two-Factor Theory a distinction has to be made in the workplaces between motivators and hygiene factors.

Herzberg S Two Factor Theory Of Job Satisfaction An

Herzberg’s Two Factor Theory The theory is that true motivators, when present, lead to satisfaction and motivation. The suggestion is that people will work harder, be more focused and be more ready to put themselves out if the rewards include true motivators such as personal growth, more responsibility or a greater sense of achievement.

Herzberg’s Motivation Theory (Two Factor Theory)

Two Factor Theory is based on two sides to motivation. Hygiene factors which are required by don’t increase motivation and growth factors which are the crucial factors which actually drive motivation.

Herzberg first discussed his influential theory in 1959’s Motivation to Work.

Frederick Herzberg’s Two Factor Motivation Theory ... Frederick Herzberg’s Two Factor Theory of Motivation is a content model of motivation which says that satisfaction and dissatisfaction in work are created by different factors. Herzberg uses the phrase “motivating factors” to describe things that, when present, have the ability to make individuals satisfied or even happy at work.

Two-factor theory | labour | Britannica

Two-Factor Theory Herzberg’s Two-Factor Theory is comprised of two separate factors which are hygiene and motivators. The factors are separate entities because an increase in one factor will not lead to a decrease in the other. An increase in job satisfaction will not lead to a decrease of job dissatisfaction.

Two-factor theory - Wikipedia

According to the Two-Factor Theory, there are four possible combinations: High Hygiene + High Motivation: The ideal situation where employees are highly motivated and have few complaints. High Hygiene + Low Motivation: Employees have few complaints but are not highly motivated. The job is viewed as uninteresting. Low Hygiene + High Motivation: Employees are very motivated and barely have complaints, but they’re not really motivated, they see their work... Low Hygiene + Low Motivation: These factors are hygiene factors and affect motivation in the workplace. These factors are: Motivators: Things which can encourage employees to work harder. Hygiene factors: These won’t encourage employees to work harder but they will cause them to become unmotivated if they are not present.
